19956

ELECTRICAL SAFETY

1. The projector must be earthed if possible.
2. Before touching the projector, please switch off the unit and allow it to cool.
3. In the case of damage to the safety shield, this must immediately be replaced with tempered glass.
4. Please note the warning mark (label) on the projector.
5. Recommended mounting height of 2.3-3m. (see fig.3)
6. Installation is shown in Figure 4 below

NOTE: If your mains wiring differs in any way, consult a qualified electrician. Always ensure that the mains supply voltage is correct. Always replace the fuse with one of an identical rating. If the external flexible cord of this projector is damaged, it must be replaced solely by the manufacturer or his service agent or a similar qualified person to avoid any hazard.

INSTRUCTIONS OF USE

Check that the projector is safely mounted. Ensure that the cable is not trapped by any sharp objects and that the mains plug connection is adequately protected against rain or moisture. Your projector is now ready for use.

Replace any cracked protective shields.

Minimum distance from projector in use: 1m.
