

THE GREENER WAY TO RELAX

VERTO SERIES

At MSpa, we're committed to creating products that care—for both you and the planet.

The VERTO Series combines energy-efficient engineering with eco-conscious materials, helping you enjoy every soak with less impact and more peace of mind.

BUILT RIGID, MADE TO SAVE

Crafted from dense EPE foam, the body holds a defined shape that looks and feels solid and sturdy. It remains lightweight while enhancing heat retention—saving energy, boosting comfort, and supporting sustainability.

* Cocoon.

Variable Speed Bubble

Personalize the intensity of your air bubble massage.

UVC Plus Sanitizer

The built in UVC sanitizer can kill bacteria without any harm to the user.

MSpa Link 2.0

Control your spa anytime, anywhere. Now enhanced with the TASK module.

Anti-icing System

As long as your spa is in standby mode, the spa will monitor the water temperature and prevent it from freezing.

ALL-IN-ONE CONTROL BOX

Our compact all-in-one control box puts every function at your fingertips—smart, streamlined, and easy to use. Despite its smaller size, it delivers full performance with intuitive operation.

Select models now come equipped with JET functionality, offering even more versatility in a single efficient unit.

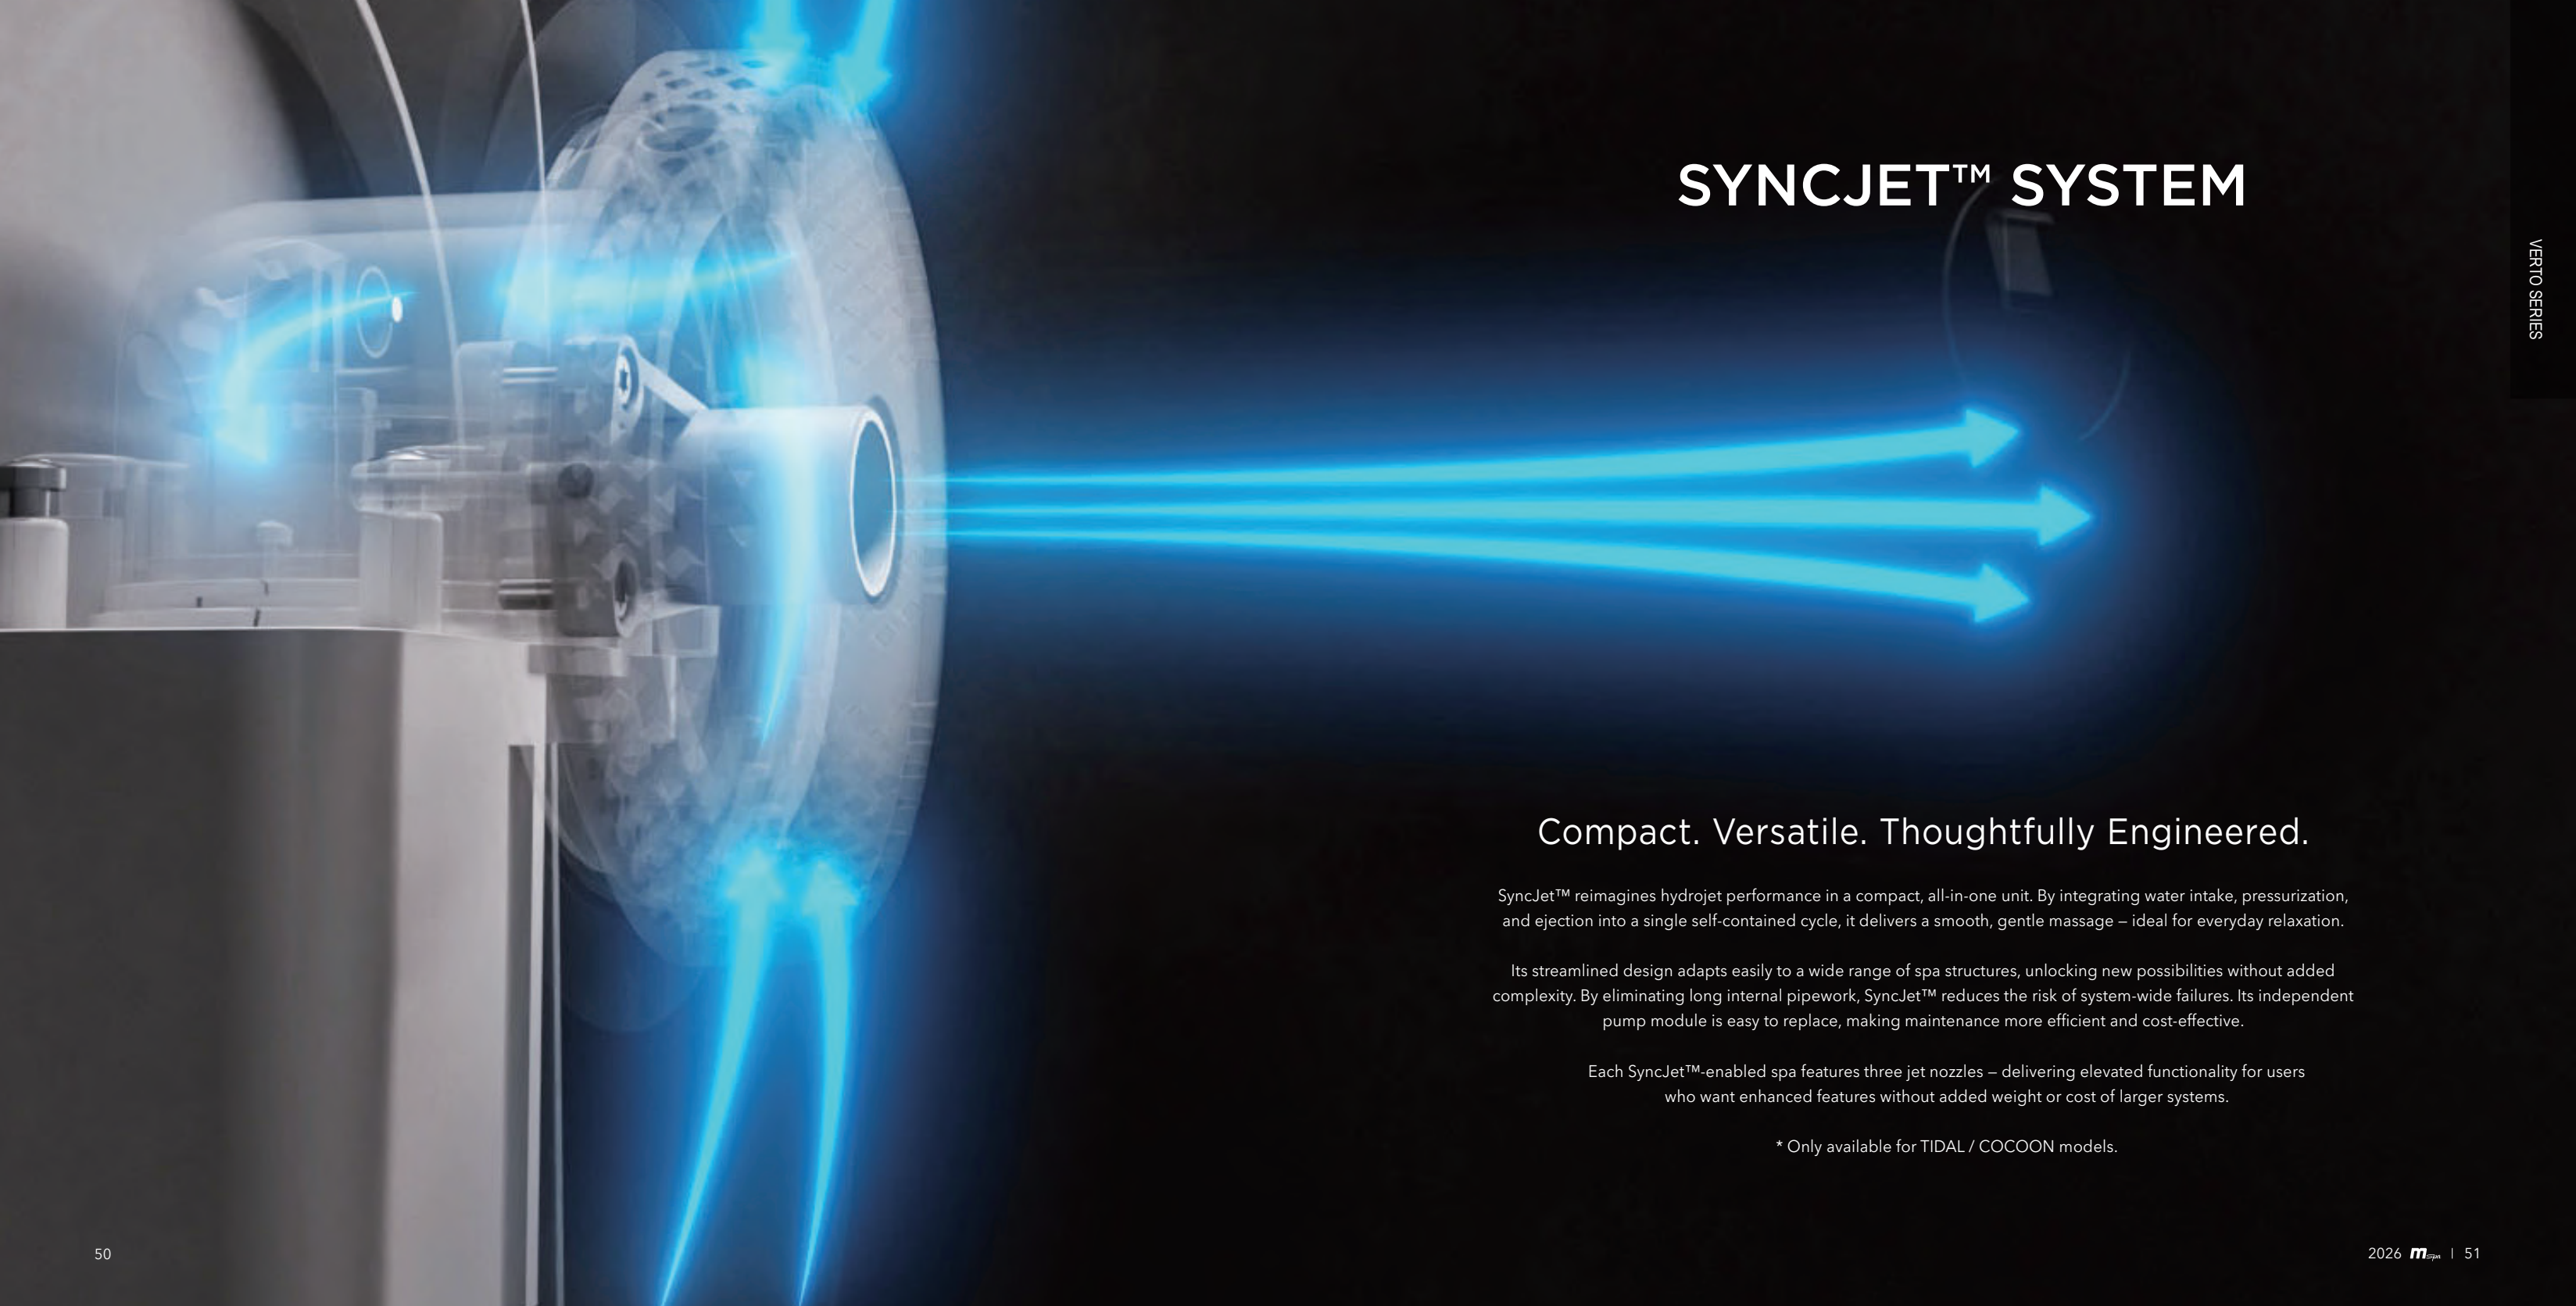

ECO PACKAGE

Say goodbye to plastic packaging bags and cushioning - we've replaced them all with recyclable paper materials. Not only does this move reduce plastic waste and contribute to a cleaner planet, but it also ensures that our packaging aligns with our eco-conscious values.

ECO PRINTING

Harnessing the power of high-precision ink nozzles, this innovative method crafts intricate patterns while utilizing minimal ink. With an astounding ink-saving rate of up to 90%, it stands at the forefront of eco-conscious practices. Now featured in all Tidal, Mono, Naval and Duet models, our eco-printing technique represents a bold stride towards sustainability, where elegance and environmental responsibility harmoniously converge.

SYNCJET™ SYSTEM

Compact. Versatile. Thoughtfully Engineered.

SyncJet™ reimagines hydrojet performance in a compact, all-in-one unit. By integrating water intake, pressurization, and ejection into a single self-contained cycle, it delivers a smooth, gentle massage – ideal for everyday relaxation.

Its streamlined design adapts easily to a wide range of spa structures, unlocking new possibilities without added complexity. By eliminating long internal pipework, SyncJet™ reduces the risk of system-wide failures. Its independent pump module is easy to replace, making maintenance more efficient and cost-effective.

Each SyncJet™-enabled spa features three jet nozzles – delivering elevated functionality for users who want enhanced features without added weight or cost of larger systems.

* Only available for TIDAL / COCOON models.

- MSpa Link Control: Control your spa anytime, anywhere.
- SyncJet™ System: Built-in self-priming pump for compact jet operation.
- Quick-install Foam Structure: Sturdy walls with enhanced thermal insulation.
- 3-Speed Bubbles: Switch between bubble intensity levels.
- PTC Safe Heating: Safe, efficient heating up to 40°C (104°F).
- Smart Filtration: Keep water clean with minimal effort.
- UVC Plus Sanitizer: Eliminate harmful bacteria for safer soaking.
- M-shield™ Fabric: Antibacterial liner reduce bacterial buildup.
- All-in-one Control Box: Compact, integrated and full-featured.
- Eco Packaging: Recyclable materials with reduced plastic waste.

Product Model	F-CO066WE
Dimensions	Ø 1.8 x 0.65 mH / Ø 70.9" x 26" H
Water Capacity	850 L / 224 gal
Net Weight	45.9 kg / 101.3 lbs
Air Jets	130
Hydro Jets	3 sets (3 nozzles)
Seating	6
Heating Rate	1.9-2.6 °C/h
Control System	220 - 240 V, 50 Hz
Heater	2200 W
Massage Air Blower	720 W - 3 levels (L1: 300W, L2: 500W, L3:720 W)
Jet Pump	32 W * 3
Filter Pump	1800L/h

Lock in the Warmth

The 10cm-thick, high-density EPE foam panels act as a robust thermal barrier, shielding the spa from ambient cold air. Lab tests show that with COCOON, water heats up to 2.6°C/h, helping consumers reduce energy consumption as little as 3-6 KWh per day.

Easy Setup, Thoughtfully Designed

COCOON features pre-slotted foam panels and a self-supporting structure that make setup smooth and effortless. The open-end panel is wrapped in a precision-fit sleeve, requiring minimal alignment. With just two people and about 15 minutes, your spa is ready – no tools, no hassle.

TEXTILE-INSPIRED DESIGN

Wrapped in the warmth of home. The exterior features a cozy, rug-like texture that evokes comfort and calm—like being gently cocooned in a space that feels safe, soft, and familiar.

ALL-IN-ONE CONTROL BOX

Our compact all-in-one control box combines smart, streamlined functionality in a single, intuitive unit. Despite its smaller size, it delivers full performance—now with JET features for enhanced versatility.

VERTO SERIES

SyncJet™ System

SyncJet™ reimagines hydrojet performance in a compact, all-in-one unit. By integrating water intake, pressurization, and ejection into a single self-contained cycle, it delivers a smooth, gentle massage—perfect for everyday relaxation.

VERTO SERIES

Filter cartridge x 2 & cartridge base x 1

Buckle spa cover for COCOON

Wrench

Heat-preservation foam mat (9pcs/pack)

Garden hose adapter

Air / water stopper caps

Inflation hose and adaptor for COCOON

Chemical Dispenser and pH test strips

Inflatable bladder for COCOON

The Best Filtration System Ever

MEET MDC.™

Our MSpa Direct Current system is our most advanced filtration system yet. Featuring a brand new DC pump with specialized impeller, the system offers stronger water flow and increased circulation speed of 1800 liters per hour, a 36% improvement to our previous system and superior to current pumps on the market. Although the system boasts stronger water flow, we've cut energy consumption by 30%! Feel peace of mind as our TURBO fan construction pushes foreign objects through with ease and enjoy for years to come as the new x-ring guarantees 10,000 hours of continuous operation.

UVC

Powerful UVC sanitation kills over 60 disease-causing microorganisms and pathogens without the use of harmful chemicals. Our sanitizing chamber is housed inside the spa's control box and continuously sanitizes water that passes through the chamber. Since you will never come in contact with the UVC light, this setting can be turned on while you are enjoying your spa.

SMART FILTRATION

Auto Filtration

Our smart filtration system automatically keeps your spa water clean and ready—running a 60-minute filtration cycle every 8 hours while in standby mode. Whether indoors or outdoors, your spa is always prepared for your next session.

Cleaning Reminder

Smart Filtration does not replace water changes or water treatment. We recommend replacing the water monthly and treating it weekly. Worried you'll forget? A reminder will pop up weekly when the spa is in regular use.

Self-Cleaning Mode

Automatically flushes the filter pump after use—keeping your spa cleaner with zero extra effort.

Available only for FRAME / VERTO SERIES.

It's All In Your Palm MSPA APP.

Say goodbye to the days of reaching over your spa or worse, having to get out of your relaxing soak, just to change some settings.

With our new innovative spa app:

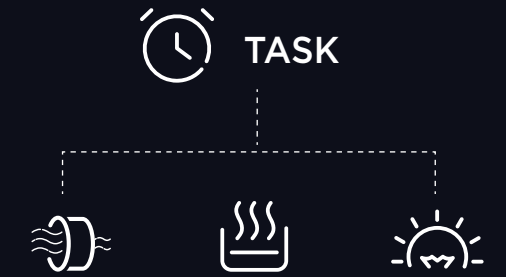

- Have full control of your MSpa at all times right at your fingertips
- Enjoy the easiest operation and usability through our intuitive UI
- Easily receive tips, notices and alarm alerts on the go so you're always in the loop

The MSpa APP is available on FRAME Series, VERTO Series and Indigo spa.

Now Upgraded to 2.0! Introducing the new TASK Module

Plan, automate, and forget the hassle. The updated MSpa Link™ lets you schedule heating, cleaning, and more – with personalized one-time or recurring tasks.

Plan It Your Way

Customize your spa routine with flexible scheduling. Set dates, repeat actions, or combine multiple functions. Your spa, your rules.

Reduce Daily Chores

No more relying on memory to maintain water quality—the app takes care of it for you. Stress-free, consistent, and always on time.

Smart Calculation, Easy Planning

The built-in Auto Calculation feature recommends the best heating start time based on your command. Just tell the app when you want to soak—and it does the rest.

Heating Countdown

No more guessing wait times. Once heating begins, a dynamic countdown appears on the home screen and auto-adjusts every 30 minutes based on local weather and water temperature.
